

Feature Highlight: Attorney Skill Development

This Functionality Supports:

Attorneys, Pro Bono Teams and Professional Development Teams

Pro bono is a fantastic way for attorneys to gain practical experience and strengthen their legal skillsets. Look to Paladin's easy-to-use tools to match attorneys with pro bono matters that support their professional development goals.

Customize Profiles

Attorneys are asked to complete a brief questionnaire when they start using Paladin in order to customize their experience. Attorneys' dashboards and weekly digest are then tailored specifically to their interests and availability, as well as skills they are interested in strengthening.

What skills are you interested in developing or enhancing through Pro Bono work? Choose up to 5.

Find Opportunities

When browsing the Paladin pro bono database, attorneys can easily search by skillset to find opportunities that match the areas they are looking to develop.

Professional development teams can utilize these filters to guide users towards opportunities that will help achieve their goals.

Track & Manage

Through Paladin's robust administrator dashboards, you'll be able to easily track and view what skills attorneys have cultivated based on their pro bono participation.

Whether writing performance reviews, preparing for 1-1 coaching sessions, or generating reports, this feature provides instantaneous access to individual attorney skill development progress.

 Paladin is a real-time pro bono database that helps lawyers easily find interesting pro bono opportunities that fit their skills, interests, and availability.
