Paladin + LegalServer
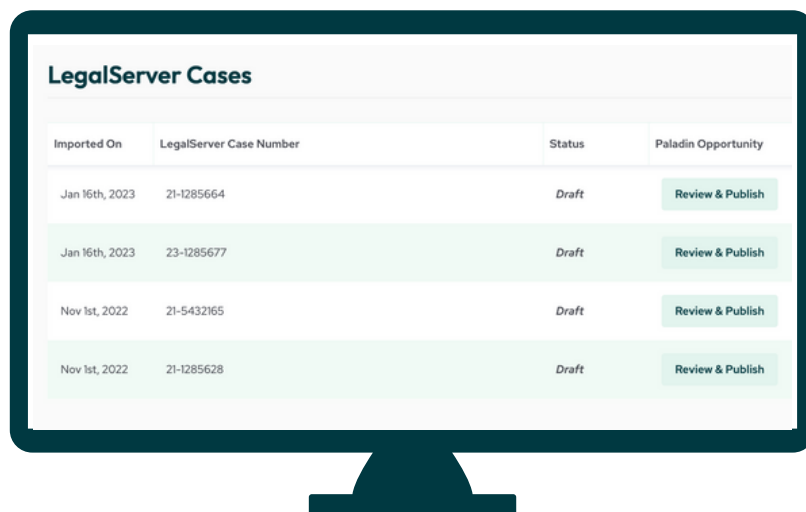

Check out our joint integration to connect LegalServer's case management system with Paladin's volunteer recruitment platform!

INTEGRATE

Streamline your pro bono referrals and volunteer recruitment cross-platform by integrating LegalServer's Pro Bono Module with Paladin.

LegalServer Cases

Imported On	LegalServer Case Number	Status	Paladin Opportunity

Nov 1st, 2022	21-5432165	*Draft*	Review & Publish
Nov 1st, 2022	21-1285628	*Draft*	Review & Publish

REFER

Seamlessly transfer case listings from LegalServer to Paladin with the click of a button.

As volunteers discover and apply for pro bono matters on Paladin, the referring legal services organization is automatically notified, and the volunteer's information is logged in the organization's Paladin dashboard.

PLACE

As volunteers are placed on pro bono matters, this data automatically transfers to LegalServer for ongoing supervision and case management by the referring legal services organization. This new integration creates interoperability between case referral and management to streamline pro bono workflows across the ecosystem, and increases ease of use and efficiency for legal services organizations.
